

## Background

EdCuration helps educators find the products and resources they need to support their students

*“make searching, discovering, evaluating, comparing and connecting to programs & providers easier than ever before”*

# Project Challenge

---> Design an effective and intuitive way for educators to navigate the marketplace, find, research, select and order instructional resources.

**DIRECTORS**

**PRINCIPALS**

**EDUCATORS**

## Direction of Design

**HOW MIGHT WE** help educators find instructional materials quickly & efficiently while being able to involve their colleagues and/or principals in the process?

# Process

Research

Ideation

Validation

Final Design

# Research

Initial Assumptions

Research Goals

Research Plan

# Research Methods

## Qualitative and Quantitative:

- ✓ Heuristic Evaluation
- ✓ Comparative/Competitive analysis
- ✓ Interviews
- ✓ Usability testing
- ✓ Surveys

## Initial Assumptions

- Most educators **struggle** to find the right resources
- **Lack of confidence** about buying resources they've never tried
- Curriculum needs to **comply with state** regulations
- Educators have **budget limitations**
- Research on instructional resources is mostly done **over the summer**

# Research Goals

- Know the difficulties users encounter when looking for instructional resources generally

- Trigger user to click on CTA button

# Research Methods

## Qualitative and Quantitative:

- ✓ Heuristic Evaluation
- ✓ Comparative/Competitive analysis
- ✓ Interviews
- ✓ Usability testing
- ✓ Surveys

# Heuristic Evaluation

Measuring the usability of user interfaces

- ✓  The language is well **tailored to educators**
- ✓  The search by drop down is **standard** throughout the site
- ✓  Products are laid out in a **visually clear** grid format
- The selections for searching, going back, and adding a product to favorites is **seemingly intuitive**

- ✗  There is **no indication** of the full number of pages found in a search via the filters
- ✗  While navigating the website there is no way to know which **tab or page** you are on
- ✗  Accessing the user dashboard takes a few **extra steps**
- ✗  **Inconsistent results** when using search bar (ie. not all keywords bring up results)

# Competitive Analysis

	UI design	Sorting	Filter by grade/subject	Pricing Models/Info/Filtering	Interactive design / Gamification	Intuitive navigation	Targeted CTA buttons
Our company 	Could be better	Search bar is barely visible	Has a lots of different filters to narrow down the search results.	Pricing info is only available for some products.	No gamification, few videos.	It lacks hierarchy	OK. It could be better.
Competitor 1 <a href="https://betterlesson.com/">https://betterlesson.com/</a> 	Good	It took quite a few steps to get to a place to sort/search specific tools	No filters available	Found no pricing info	Basic, it contains few clickable elements, to know more details of a specific product they send you through a PDF.	It lacks clarity of what the products are, search for information is frustrating.	OK. Some CTA included in the PDF has broken links
Competitor 2 <a href="https://www.teacherspayteachers.com/">https://www.teacherspayteachers.com/</a> 	Good	The sorting system looks up to date and intuitive.	Has a lots of different filters to narrow down the search results.	Pricing is clear, shown in the search page and detail page always at the top.	Design is simple and interactive. Checkboxes, icons, dropdown menus and descriptions. Widgets that include bundles in description page.	Easy to use, filters and buttons are clear, looks a lot like any other marketplace.	CTA is clear and is pretty straight forward, Add to cart. It is also sticky, which means we see it through all the product detail page navigation.
Competitor 3 <a href="http://www.quizizz.com">www.quizizz.com</a> 	Great	Sorting looks quite random	You can only filter by subject. Lacks parameters to filter quizzes by grade.	Found no pricing info	Very fun to navigate, contrast of colors and animations are well done.	Intuitive, narrows down the choices in menus, you know exactly what you're choosing.	CTAs are clear
Competitor 4 <a href="https://www.discoveryeducation.com/">https://www.discoveryeducation.com/</a> 	Great	Sorting doesn't come in a list format, since it's not a marketplace itself, the products don't seem to compete with each other	No filters available	Found no pricing info	Contains slides images, videos previews that support the product description.	Intuitive	CTAs are clear
Competitor 5 <a href="https://www.khanacademy.org/">https://www.khanacademy.org/</a> 	OK	The sorting is good. They have a search bar. Once you enter a keyword, you can see instant results	Similar to Google - all, videos, exercises etc	Found no pricing info	Contains clickable elements, shows progress on courses, animations on scrolling	OK. Sometimes it lacks clarity of what you need to do next.	CTAs are clear 

# User Interviews & Usability Testing

Team1

8 educators

Varying roles in **K-12**

*"By the info on the product page, it's hard to tell what it really is"*

*"Wait I thought I was picking science"*

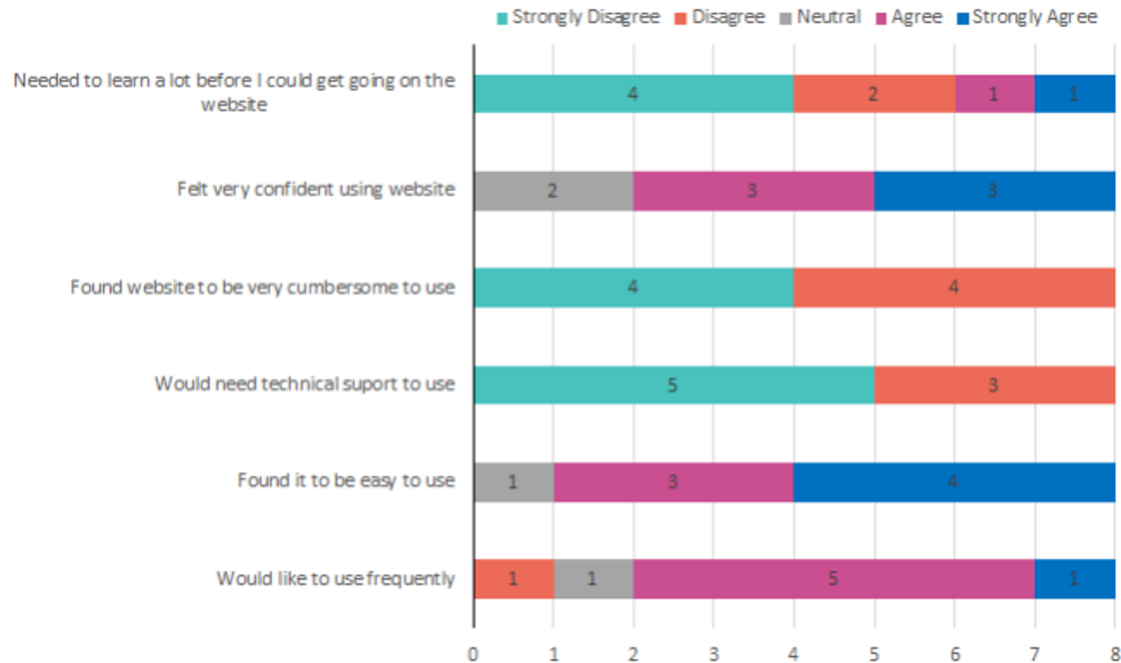

# User Interviews Observations

	P1	P2	P3	P4	P5	P6	P7	P8
<b>Observations</b>	Red	Orange	Yellow	Green	Cyan	Blue	Purple	Magenta
Would make a list	Red		Yellow					
+ Used 'Favorites' button	Red		Yellow	Green	Cyan	Blue		
Want sample lesson	Red		Yellow					
- Did not use 'Ask a Question'	Red	Orange	Yellow	Green	Cyan			Magenta
- Did not use the 'Request Info'	Red	Orange	Yellow	Green	Cyan			Magenta
+ Would watch video	Red	Orange	Yellow		Cyan	Blue		Magenta
+ Used the filters to search	Red	Orange	Yellow	Green	Cyan	Blue	Purple	Magenta
Found pricing unclear	Red			Green	Cyan			Magenta
Found reviews important			Yellow			Blue		
- Did not see Pilot Opportunities		Orange		Green	Cyan	Blue		Magenta
Wanted a compare feature	Red		Yellow					Magenta
Used/would use search bar			Yellow		Cyan		Purple	
Cleared filters to begin new search						Blue		
Blurb under product helpful		Orange	Yellow					Magenta
Did not notice 'Favorites' option		Orange					Purple	Magenta
Would use the 'My Notes' section				Green			Purple	

# Post-interview User Surveys

## 6 question survey evaluating website

# Empathy Map

You should make sure this product has testimonials/rating before purchasing.

How will I ensure this product works?

Asking fellow colleagues for **advice on curriculum**

Saving time by finding all potential products on one website.

Too much information to sort through when browsing.

# Empathy Map

## SAY & DO

- Asking fellow colleagues for advice on curriculum
- Adhering to the school's best practices
- Exploring online options
- Research what products other schools/districts are using.

## THINK & FEEL

- What product will work best for my students?
- What product will fit in the budget?
- How will I ensure this product works?
- Overwhelmed with the number of options.
- Is free demo available?
- I heard about this from a colleague
- Is this worth investing money and time?

## (-) PAIN

- Limited experience with online resources.
- Budget limitations.
- Too much information to sort through when browsing.
- Finding time to get quotes from all products being considered.
- Finding the product that fits the culture of the school/district.
- Quality of the course

## HEAR

- Word-of-mouth referrals.
- You should check for your resources online first.
- You should make sure this product has testimonials/rating before purchasing.
- All products need to be board approved before purchasing.

## SEE

- Schools that have transitioned into online learning.
- Colleagues who look for resources online.
- Products that are currently being used and the shortfalls.
- Diverse set of needs for a diverse group of students.
- Edreports reviews

## (+) GAIN

- Fresh perspective on planning.
- Finding a useful online tool that fulfills specific needs.
- Saving time by finding all potential products on one website.
- Getting quotes for products through one website.
- Future self-improvement plan and method

# Affinity Mapping Insights

## SEARCHING FOR RESULTS

## PRODUCT PAGE DETAIL

# Affinity Mapping Insights

*Team1*

Search results are not always relevant

The information is inconsistent, we need a uniform structure across all product pages

Don't tend to click on CTA buttons

# Educator persona

Sarah Leclerc

Science Teacher, NJ

## DEMOGRAPHICS

Age: 42

Job: Science Teacher, Public HS

Tech level: Intermediate

Device: Desktop

## BIO

Sarah is a high school science teacher working for a mid-size public school in a nice suburban school district. She's been working in education for a total of 17 years, 5 of them in her current role. She serves as the head of the science department and works with a team of 4 teachers. Every summer they explore the curriculum options that could fit the budget they are given and share their findings with each other in order to find a perfect solution for their students. She's really passionate about her work and does the research with meticulous attention to detail.

## GOALS

- Find resources that fit her students' needs
- Streamline her teaching process
- Finding efficient ways to teach certain materials
- Being able to pitch to others

## FRUSTRATIONS/CHALLENGE

- S** Spending a lot of time doing research
- Not being able to find support documents proving efficacy of a resource
- Getting the board of teachers to go to the same direction
- Not feeling confident buying a product before testing

## MOTIVATIONS

- Saving time by narrowing resources down
- Having access to multiple options
- Being able to narrow down her choices
- Access to support documents

# User Journey

STEPS

PRE-SEARCH

SEARCH

CONSIDER

CONTACT  
VENDOR

ACTIONS

- Asks around about what her colleagues are using
- Reviews her department budget
- Meets with her team to discuss department needs

- Scans all search results
- Looks for keywords that give her confidence in product
- Reviews product information carefully
- Looks for free pilot lesson

- Reviews the blurb
- Reviews product summary
- Watches video
- Looks for pricing info
- Looks for downloads for pitching
- Goes to vendor website

- Asks vendor for a quote
- Asks vendor for a sample lesson
- Schedules a pilot presentation
- Discusses purchasing options

EMOTIONS

"How do I find exactly what fits mine and my students' needs within the budget?"

"Yay, so many options out there! And I can narrow my options down by filtering the materials!"

"Oh, wait, this is too confusing.. I don't have that much time and energy!"

"Feeling hopeful now!"

OPPORTUNITIES

- Referrals from previous users via emails or social media

- Accurate filter results
- Bulleted list under products to highlight product key points
- Reducing number of steps to get to product page

- Consistent product page structure
- Clear hierarchy of information
- Sharing option
- Suggestions based on previous searches

- Vendor rating and overall image
- Option to get a quote
- Pilot opportunities

## Direction of Design

**HOW MIGHT WE** create a **reliable search system** and **consistent product description page** for educators so they can **pick the right resources** for their school/curriculum/district?

# Direction of Design

## ▶ MUST HAVE

- Consistent product page
- Bulleted keywords in product description
- Sharing option
- Improved search bar
- Instant quote

## ▶ NICE TO HAVE

- Navigation tabs
- Suggestions based on browsing history
- Product rating
- Vendor rating

## Areas of Focus
